

## Prizes and Awards

In the annual Expoagro 2009, ADDED™ TECH won two Golden Medals to Innovation. The first one for a System for Generating Air Pressure or Vacuum for Pneumatic Seed Meters , that simplifies the pneumatic systems and hydraulic circuits of the actual seeding dispensers. The second one for a Dispenser's Devices Driving and Controlling System , that allows the elimination of gears, chains, motion boxes, hydraulic motor and other similar parts. For more information about the prizes, please visit: <http://www.expoagro.com/> In 2007, Mr. Moszoro was awarded the WIPO's PRIZE (World Intellectual Property Organization). In the same year, Mr. Antonio Moszoro won the INNOVAR 2007 Prize (Class: Agriculture) in the National Innovations Contest for the Electropneumatic Seeder . The National Competition of Innovations was organized by different Argentinean Public Agencies, with contributions of the World Intellectual Property Organization (WIPO). Essential requirements were: "Highly innovative products, with commercial potential and patentability. Obligatory requisite: working prototype."
